Summary

Dedicated and passionate software engineer with over 5 years of experience in full-stack development. Proven expertise in leveraging advanced machine learning techniques and cloud technologies to deliver high-quality software solutions. Strong problem-solver with a commitment to continuous learning and growth in the ever-evolving tech landscape.

Experience

Software Engineer

Tech Innovations Inc. - Hahnchester, CA

June 2020 - Present

- Developed a **Content Management System** that improved content delivery speed by 40%, utilizing **Node.js** and **PostgreSQL** for backend processing.
- Implemented **Machine Learning** algorithms to enhance user personalization features, resulting in a 25% increase in user engagement.
- Collaborated with cross-functional teams to deploy applications using **Kubernetes**, ensuring seamless integration and scalability.

Full Stack Developer

Web Solutions Corp. - Hahnchester, CA

January 2018 - May 2020

- Led the development of a **Web Application** that optimized customer service processes, reducing response time by 30%.
- Created a **Payment Processing System** utilizing **Django** and **MySQL**, enhancing security measures and reducing

fraudulent transactions by 15%. - Worked closely with the DevOps team to streamline CI/CD pipelines, increasing deployment efficiency by 50%.

Junior Developer

StartUp Hub - Hahnchester, CA

August 2016 - December 2017

- Assisted in the development of an **API Gateway**, improving data interchange between microservices. - Gained hands-on experience with **Git** for version control and participated in code reviews to improve coding standards.

Skills

- **Python:** Expert
 - **Machine Learning:** Advanced
 - **Node.js:** Advanced
 - **PostgreSQL:** Advanced
 - **MySQL:** Advanced
 - **Django:** Advanced
 - **MongoDB:** Advanced
 - **Angular:** Intermediate
 - **Kubernetes:** Intermediate
 - **DevOps:** Intermediate
 - **Git:** Beginner
-

Projects

Content Management System

- Developed a scalable CMS that supports multiple content types, allowing users to manage content seamlessly and enhancing site performance.

Web Application

- Designed and implemented a user-friendly web application for a local business that improved customer interaction and significantly increased sales.

Payment Processing System

- Engineered a secure payment processing solution that integrated with various payment gateways, ensuring compliance with PCI standards.

API Gateway

- Created an API gateway that facilitated efficient communication between microservices, streamlining service requests and improving system performance.
-

Certifications

- **Docker Certified Associate**
 - **Certified Kubernetes Administrator**
 - **Google Cloud Professional**
-

Education

Bachelor of Science in Computer Science
University of Hahnchester - Hahnchester, CA
Graduated: May 2016

Additional Information

- Actively participating in local coding meetups and hackathons to continuously enhance programming skills and network with other professionals in the field.

- Passionate about contributing to open-source projects, with a focus on improving community-driven software solutions.
