---

## Summary

Innovative and results-driven software developer with over 5 years of experience in designing and implementing scalable web applications. Proficient in leading development teams and managing projects from conception to deployment. Adept at utilizing modern technologies to create high-quality software solutions, with a focus on microservices architecture. Passionate about writing clean, maintainable code and continuously improving processes through DevOps practices.

---

## Experience

### Senior Software Developer

**Tech Innovations Co.** - Warsaw, Poland

*June 2020 - Present*

- Led a team of 5 developers to build an **E-commerce Platform** that resulted in a 30% increase in sales within the first quarter post-launch.
- Designed and implemented microservices using **Python** and **Django**, improving system scalability and reducing deployment time by 40%.
- Utilized **Jenkins** for continuous integration/continuous deployment (CI/CD), enhancing development speed and minimizing bugs in production.
- Collaborated with cross-functional teams to optimize database queries in **PostgreSQL**, resulting in a 25% reduction in load times.

## Software Developer

**Creative Solutions Inc.** - Warsaw, Poland

*January 2018 - May 2020*

- Developed a **Content Management System** using **Angular** and **Django**, which improved content publishing efficiency by 50%.
- Created a **Data Analytics Dashboard** that visualized key performance metrics, leading to more informed business decisions.
- Implemented version control using **Git**, fostering better team collaboration and code management practices.

## Junior Developer

**Startup Hub** - Warsaw, Poland

*January 2017 - December 2017*

- Assisted in the development of various web applications, gaining hands-on experience with **Java** and **PostgreSQL**.
- Contributed to the implementation of DevOps practices, improving the team's deployment efficiency and reducing downtime.

---

## Skills

- **Microservices:** Advanced
  - **Python:** Advanced
  - **Jenkins:** Advanced
  - **PostgreSQL:** Intermediate
  - **Java:** Intermediate
  - **Git:** Beginner
  - **Angular:** Advanced
  - **Django:** Intermediate
  - **DevOps:** Intermediate
-

## Projects

- **E-commerce Platform**

Developed a comprehensive e-commerce solution with multiple payment integrations and user authentication, enhancing user experience and security.

- **Content Management System**

Created a user-friendly CMS that allowed non-technical users to manage content effortlessly, complete with a rich text editor and media upload capabilities.

- **Data Analytics Dashboard**

Designed an interactive dashboard for business analytics, enabling real-time data visualization and reporting for stakeholders.

- **Microservices Architecture**

Architected and implemented microservices for a large-scale application, facilitating independent deployment and scaling for various components.

---

## Education

### **Bachelor of Science in Computer Science**

University of Warsaw - Warsaw, Poland

*Graduated: June 2016*

---

## Certifications

- **Certified Kubernetes Administrator (CKA)**
  - **AWS Certified Solutions Architect – Associate**
  - **Python for Data Science and Machine Learning Bootcamp**
-
