**Location:** Bartonfurt

---

## Summary

Passionate and detail-oriented software engineer with over 7 years of experience in developing scalable applications and microservices. Proven expertise in C++ and Angular, with strong skills in DevOps practices. Adept at collaborating with cross-functional teams to deliver high-quality software solutions. Committed to continuous learning and improvement, with a track record of successfully implementing agile methodologies.

---

## Experience

### Senior Software Engineer

**Tech Innovations Inc.** - Bartonfurt, Germany

**June 2020 - Present**

- Led a team of 5 in the development of a **Content Management System**, improving content delivery efficiency by 30% through microservices architecture. - Implemented CI/CD pipelines using **AWS** and **Docker**, reducing deployment time by 50%. - Designed and developed a **Real-time Chat System** using Angular and FastAPI, resulting in a 40% increase in user engagement.

### Software Developer

**NextGen Technologies** - Bartonfurt, Germany

**January 2017 - May 2020**

- Collaborated with product managers and designers to develop user-friendly applications using **Java** and **JavaScript**. - Enhanced the performance of existing

applications, achieving a 25% reduction in load times through code optimization techniques. - Contributed to the development of a **Machine Learning Pipeline** for data analysis, utilizing **Python** and AWS services.

## Junior Developer

**Creative Solutions Ltd.** - Bartonfurt, Germany

**August 2015 - December 2016**

- Assisted in the development of web applications using **Angular** and **Go**, gaining foundational experience in full-stack development. - Participated in daily stand-ups and sprint planning sessions, gaining valuable experience in **Scrum** methodologies.

---

## Skills

- **C++** (Expert)
  - **Angular** (Advanced)
  - **DevOps** (Advanced)
  - **Microservices** (Advanced)
  - **AWS** (Advanced)
  - **Java** (Intermediate)
  - **Go** (Intermediate)
  - **Python** (Intermediate)
  - **JavaScript** (Intermediate)
  - **FastAPI** (Intermediate)
- 

## Projects

- **Content Management System:** Developed a robust system to manage and deliver content to users, leveraging microservices architecture for scalability and efficiency.
- **Real-time Chat System:** Built a chat application that supports real-time messaging, using Angular on the front end and FastAPI for the backend, enhancing user interaction and engagement.

- **Machine Learning Pipeline:** Designed and implemented a machine learning pipeline that automated data processing and analysis, resulting in actionable insights for the business.
- 

## Certifications

- **Scrum Master Certification** - Scrum Alliance
  - **Docker Certified Associate** - Docker, Inc.
- 

## Education

**Bachelor of Science in Computer Science**

**Bartonfurt University** - Bartonfurt, Germany

**Graduated: 2015**

---

## Interests

- Open-source contributions
  - Attending tech meetups and conferences
  - Exploring new programming languages and technologies
- 

Anthony is a dedicated software engineer who thrives in a fast-paced environment, always looking to improve both his technical skills and the processes around him. He believes in the power of collaboration and is eager to contribute to innovative projects that challenge the status quo.
