Summary

Passionate and detail-oriented software developer with over 5 years of experience in building scalable web applications and microservices. Proficient in leveraging cloud technologies and modern programming languages to deliver high-quality software solutions. Aiming to utilize my expertise in **Django** and **AWS** to drive innovation and efficiency in the tech industry.

Experience

Senior Software Engineer

Tech Innovations Inc. – Bowersfort, CA

March 2021 – Present

- Led a team of 5 developers in designing and implementing a **Microservices Architecture** for a large-scale e-commerce platform, resulting in a 30% reduction in load times and a 25% increase in user satisfaction.
- Spearheaded the development of an **API Gateway** that streamlined communication between services, improving system reliability and scalability.
- Utilized **Jenkins** for Continuous Integration and Continuous Deployment (CI/CD), automating the deployment pipeline and reducing deployment time by 40%.

Software Developer

Creative Solutions LLC – Bowersfort, CA

June 2018 – February 2021

- Developed a robust **Content Management System** using **Django**, allowing non-technical users to easily manage site content, which led to a 50% decrease in content update requests.
 - Collaborated with cross-functional teams to integrate **AWS** services, such as S3 and Lambda, enhancing application performance and reliability.
 - Implemented unit tests and conducted code reviews, ensuring adherence to coding standards and best practices.
-

Skills

- **AWS:** Advanced
 - **Python:** Advanced
 - **Django:** Expert
 - **PostgreSQL:** Beginner
 - **Jenkins:** Advanced
 - **Rust:** Intermediate
 - **Java:** Intermediate
-

Projects

API Gateway

- Designed and implemented a robust API Gateway that efficiently routes requests to microservices, enhancing response time and reliability of the application.

Microservices Architecture

- Architected a microservices-based solution for a high-traffic application, improving scalability and maintainability, leading to a 40% increase in system performance.

Content Management System

- Developed a user-friendly CMS that enabled content creators to publish and manage digital content seamlessly, resulting in a significant reduction in time spent on updates.
-

Certifications

- Docker Certified Associate
 - AWS Certified Solutions Architect
-

Education

Bachelor of Science in Computer Science

State University – Bowersfort, CA

Graduated: May 2018

- Relevant Coursework: Cloud Computing, Software Engineering, Database Management.
-

Additional Information

- Active contributor to open-source projects on GitHub, focusing on enhancing **Django** frameworks and tools.
- Regular participant in local tech meetups and conferences, sharing knowledge on cloud computing and best practices in software development.
