Summary

Innovative and results-driven software developer with over 6 years of experience in building scalable web applications and microservices. Proficient in a range of programming languages and frameworks, with a strong focus on Python and Go. Passionate about leveraging cloud technologies to enhance application performance and reliability. Adept at collaborating with cross-functional teams to deliver high-quality products on time.

Experience

Senior Software Developer

Tech Innovations Inc. - Stephanietown, ST
June 2020 - Present
- Led the development of a **Data Analytics Dashboard** that increased data visualization efficiency by 35%, allowing stakeholders to make informed decisions faster. - Architected a **Microservices Architecture** for a large-scale e-commerce platform, improving system resilience and reducing downtime by 25%. - Spearheaded the migration of applications to **AWS**, optimizing cloud resource usage which resulted in a 20% reduction in operational costs.

Software Engineer

Creative Solutions Ltd. - Stephanietown, ST
January 2018 - May 2020
- Developed a **Payment Processing System** that handled over 50,000 transactions

per month with a 99.9% success rate. - Collaborated in a team to design and implement a mobile application using **Vue.js** and **Node.js**, achieving an average user rating of 4.8 on app stores. - Utilized Agile methodologies to enhance team productivity and project delivery timelines, leading to a 30% increase in project completion rate.

Junior Developer

Bright Future Tech - Stephanietown, ST
June 2016 - December 2017
- Assisted in the development of web applications using **React** and **Python**, contributing to projects that improved user engagement by 15%. - Gained hands-on experience with **Django** while developing internal tools that streamlined workflow processes.

Skills

- **Python**: Expert
- **Go**: Advanced
- **AWS**: Advanced
- **Vue.js**: Advanced
- **React**: Intermediate
- **Node.js**: Intermediate
- **Django**: Beginner

Projects

- **Mobile App**: Developed a cross-platform mobile application that connects users with local services, resulting in 10,000+ downloads in the first month post-launch.
- **Microservices Architecture**: Designed and implemented a scalable microservices architecture for an online marketplace, enhancing system performance and maintainability.
- **Payment Processing System**: Built a secure payment processing system that integrates with major payment gateways, contributing to a significant increase in transaction volume.

- **Data Analytics Dashboard**: Created an interactive dashboard for real-time data analytics, simplifying data access for business analysts and decision-makers.

Certifications

- **Google Cloud Professional**
- **Certified Kubernetes Administrator**
- **Scrum Master Certification**

Education

Bachelor of Science in Computer Science
University of Stephanietown - Stephanietown, ST
Graduated: May 2016

Additional Information

- Passionate about open-source contributions and regularly participate in local hackathons.
- Actively involved in mentoring junior developers through coding boot camps and online platforms.
